## BOROUGH OF NEW ROMNEY (KENT)

Annual Reports of the Medical Officer of Health and  
of the Public Health Inspector for the Year 1960

-----  
Mr. Mayor, Alderman and Councillors,

I have the honour to present to you my Annual Report for the year 1960.

### Population

The Registrar General's estimate of the mid-year Home Population was 2,510 which was an increase of 70 over that of the previous year.

### Live Births and Birth Rate

The number of live births was 41 (24 M, 17 F.) which was also an increase of 11 over that of the previous year and the crude birth rate was accordingly 16.33; after adjustment by the Registrar General's Comparability factor which is computed from a population standardised for age and sex distribution and allows valid comparison with other Districts the rate becomes 16.17; this was slightly lower than that of 17.1 for England and Wales.

### Stillbirths and Rate

One stillbirth was registered and the corresponding rate per 1,000 total (live and still) births was 23.81, compared with that of 19.7 for England and Wales which has remained static around 20 for approximately 30 years due probably to the fact that the hard core consists of genetic or congenital and premature deaths.

### Infant Deaths and Mortality Rate

It is gratifying to record that this rate was nil, as there were no infant deaths.

### Maternal Deaths and Mortality Rate

It is also gratifying to record that this rate was also nil, as there were no deaths amongst mothers due to Pregnancy, Childbirth, and Abortion; in fact there have been no deaths for a number of years which is a very creditable reflection of the high standard of modern obstetric practice.

### Total Deaths and Death Rate

The total number of deaths from all causes was 31 (15 M. 16 F.) and the crude death rate was accordingly 12.36 which, after adjustment by the Registrar General's Comparability Factor, as for births becomes 11.74 compared with that of 11.5 for England and Wales.

The chief group cause of deaths, as invariably in previous years, was Heart and Circulatory Diseases and Vascular lesions of the Nervous System owing to the fact that these are the natural ultimate causes of death amongst the aged.

Disease of the Coronary Artery of the Heart is, however, an exception in that it claims many victims in middle age; of these there was a total of eight deaths, the ratio of males to females having been 3 ; 1, and the ages at death having ranged from 47, 57, 64, 68 to 97 years. Intensive research is being concentrated on its causation which is still obscure.

Cancer, also as in previous years was the second highest cause of death, despite the notable modern advances in diagnosis and treatment, and is probably due to the fact that the majority of persons who suffer from the disease are in old-age and procrastinate in seeking medical advice, having regard to the often insidious and latent onset of the disease. The total number of deaths was eight.

Of these, Cancer of the Lung caused one male death, aged 74 years.

Like Coronary Thrombosis, many deaths occur from it in middle age and invariably predominate amongst males which may be significant when associated with excessive smoking; nevertheless, it is a fact that the majority of 'Smokers' do not die from Cancer of the Lung, and it may be that those who suffer from the disease have a latent predisposition which smoking accelerates or precipitates.

There was no death due to the Infectious Diseases and amongst the remaining miscellany of causes there was no exceptional incidence.

#### The Infectious Diseases

Relatively few cases of notifiable infection occurred within the Borough throughout the year.

#### Whooping Cough

Twenty-five cases were notified. More and more children are being inoculated each year at the Child Welfare Centre or by the family Practitioners and it is hoped that an immune barrier is being created against future outbreaks of this distressful and often serious children's disease.

#### Measles

This was a non-epidemic year, only two cases having been notified. Nevertheless it seems inevitable that outbreaks will occur, usually every second year as the virus is always present amongst children. Fortunately, it is not generally a serious disease in that its serious complications such as Broncho-pneumonia, Suppurative Otitis Media and Acute Encephalitis, in that order of frequency are comparatively rare; it would seem, however, that Acute Encephalitis has been more prominent in recent years.

#### Scarlet Fever

One sporadic case was notified.

The causal organism in its present phase has lost much of its virulence of former years and its once serious complications such as Acute Nephritis, Carditis and Suppurative Otitis Media are now seldom seen. Cases are usually admitted to Hospital for social reasons, as, for example, when it is desirable to prevent the spread of infection in a crowded household.

#### Erysipelas

One case of this skin infection was notified. The causal organism is the same as that of Scarlet Fever, and prior to 1936 when the Sulphonamides were introduced was a serious disease. Treatment, however, with the Sulphonamides or Antibiotics to which the organism is sensitive is specific and it is almost dramatic to observe the recession of the inflammation.

#### Tuberculosis

Only one new case of Respiratory Tuberculosis was notified and was in the 65 plus age-group. Prior to around 1950, the majority of notifications were in the 15 - 24 age-group, but since then the number of notifications have been declining to nil, which is a very desirable

trend. School Leavers are also offered B.C.G. vaccination which should further consolidate this position.

The Mass Radiography Service which visitied the Borough in July 1960, discovered no new cases out of a total of 372 individuals, and this may be regarded as a general index that there is no reservoir of infection within the population.

No new cases of Non-Respiratory Tuberculosis were notified and this very satisfactory position may also be regarded as a general index of the safety of the milk and to a lesser degree the meat supplies, from the contagion of the Bovine bacillus.

There were also no deaths which reflects the notable advances achieved in modern treatment.

It is hoped in the fore-seeable future that all the powerful forces of prevention being engaged will eventually eliminate this disease which has afflicted man for Centuries.

In conclusion, I wish to take this opportunity of thanking you for your interest and support in the work of the Department and the staff for their co-operation and assistance.

I am,

Your obedient Servant,

J. MARSHALL. M.B., Ch.B., D.P.H.

Central Public Health Office,  
14, Church Road,  
Ashford,  
Kent.

Tel: No: Ashford 1485.

STATISTICAL AND SOCIAL CONDITIONS OF THE DISTRICT

FOR 1960

Area:- 1,509 acres

Registrar-General's Estimate of:-

The Resident Population	...	...	...	2,510
Number of Inhabited Houses According to the Rate Books	...	...	...	1,112
Rateable Value	...	...	...	£42,281
Sum represented by a Penny Rate	...	...	...	£165

SOCIAL CONDITIONS

The ancient and historical Cinque Port Borough of New Romney, is today predominantly an Agricultural District. There are also within the Borough, the workshops of the Romney, Hythe, Dymchurch Light Railway and a few small factories. Part of the boundary is formed by the sea at Littlestone and Greatstone where there are wide expanses of sand which attract many summer visitors and holiday-makers. There is almost no unemployment and social conditions may generally be regarded as being satisfactory.

EXTRACTS FROM VITAL STATISTICS

(B) (i) Number of dwellings not supplied by public water mains or other adequate piped supplies. ... NIL

(ii) Number of dwellings in the area ... 1,112

(C) Action taken in respect of any form of contamination - None found

SEWERAGE AND SEWAGE DISPOSAL

Reference to any additions or improvements in respect of sewerage systems or sewage disposal works and also to new schemes constructed during the year.

- NIL -

FOOD (INCLUDING ICE CREAM AND MILK) AND FOOD PREPARING PREMISES

- (i) (a) the number of food premises in the area ... 40  
 (b) the number of food premises registered under Section 16 of the Food and Drugs Act, 1955. ... 32  
 (c) the number of inspections of registered food premises ... 20  
 (d) the method of disposal of condemned food - Burial at refuse tip.

FOOD AND DRUGS ACT, 1955

Number of inspections of:-

Bakehouses	...	...	Not applicable
Butchers and meat products manufacturers	...	...	6 )
Catering Establishment and Clubs	...	...	12 )
Dairies	...	...	6 ) Estimated
Fish (including fried)	...	...	11 )
Licensed Premises	...	...	6 )
Stalls, Itinerant Vendors and delivery vans	...	...	3 )
All other Food Premises	...	...	12 )

Number of Informal (including Verbal) Notices Served (Food and Drugs Act - Food Hygiene Regulations, 1955)

- NIL -

Preparation of Food and food-preparing premises

- (A) Brief particulars of any action taken, including inspection of meat and other foods, slaughterhouses, stalls, vehicles and food-preparing places:-

No action necessary.

- (B) Observations on manufacture and sale of ice-cream in accordance with the Ice Cream (Heat Treatment) Regulations 1947 - 1959.

Pre-packed ice-cream only sold.

Number of samples of Ice Cream taken for bacteriological examination during the year and results obtained

- NONE -

(ii) MILK AND DAIRIES

- (1) Milk and Dairies Regulations 1949 (Part III)  
Milk and Dairies (General) Regulations, 1959 (Part III)

No. of registered distributors	...	...	2
No. of registered dairies	...	...	3

- (2) SUMMARY OF MILK SAMPLING for the purposes of Milk (Special Designation) Regulations.

	<u>No. of Samples taken</u>	<u>No. of Samples which failed</u>
Pasteurised Milk	Nil	Phosphatase test: Nil
		M.B. test Nil
Sterilised Milk	Nil	Turbidity test: Nil
Tuberculin Tested Milk (raw)	Nil	M.B. test Nil

MEAT INSPECTION

Carcases and Offal inspected and condemned in whole or in part.

- NIL -

<u>Number of Slaughter-houses in use</u>			
Slaughter-houses/Abattoirs in operation owned or leased by Local Authority	Private Slaughter-houses Licensed Operating	Bacon Factories	Knackers' Yards
NIL	-	-	-

INSPECTION OF MEAT AND OTHER FOODS

Unsound Food Surrendered

Frozen Ox-liver	10 lbs.	Frozen lamb kidney	10 lbs
Bacon	9 "	Cooked Ham	28 "
also miscellaneous canned foodstuffs.			

PUBLIC HEALTH AND HOUSING ACTS

HOUSES IN CLEARANCE AREAS AND UNFIT HOUSES ELSEWHERE

(Summary of quarterly returns by local authorities to Ministry of Housing and Local Government in P.13 Hsg. for the year ending 31st December)

A. Houses demolished

<u>In Clearance Areas</u> (Housing Act, 1957)	<u>Houses Demolished</u>	<u>Displaced during year</u>	
		<u>Persons</u>	<u>Families</u>
(1) Houses unfit for human habitation	-	-	-
(2) Houses included by reason of bad arrangement	-	-	-
(3) Houses on land acquired under Section 43(2) Housing Act, 1957	-	-	-
<u>Not in Clearance Areas</u>			
(4) As a result of formal or informal procedure under Section 17(1) Housing Act, 1957	-	-	-
<u>B. Unfit Houses Closed</u>	<u>Number</u>		
(5) Under Sections 16(4), 17(1) and 35(1) Housing Act, 1957	-		
(6) Under Sections 17(3) and 26 Housing Act, 1957	-		
(7) Parts of buildings closed under Section 18, Housing Act, 1957	-		

C. Unfit Houses made fit and Houses in which defects were remedied

	<u>By owner</u>	<u>By Local Authority</u>
(8) After informal action by local authority	6	-
(9) After formal notice under -		
(a) Public Health Acts	2	
(b) Sections 9 and 16 Housing Act, 1957	1	
(10) Under Section 24 Housing Act, 1957	-	

D. Unfit Houses in temporary use (Housing Act, 1957)

<u>Position at end of year</u>	<u>No. of houses</u> (1)	<u>Number of separate dwellings contained in column (1)</u> (2)
(11) Retained for temporary accommodation		
(a) Under Section 48	-	-
(b) Under Section 17(2)	-	-
(c) Under Section 46	-	-
(12) Licensed for temporary occupation under Section 34 or 53	-	-

E. Purchase of Houses by agreement

	No. of houses (1)	Number of occupants of houses in column (1) (2)
(13) Houses in Clearance Areas other than those included in confirmed Clearance Orders or Compulsory Purchase Orders purchased in the year.	-	-

IMPROVEMENTS AND CONVERSIONS

GRANTS

Number of schemes submitted and number approved for works of improvement or conversions, including total costs, the grants made and the number of houses concerned.

Standard Grants - 7 applications - all approved  
Number completed - 3 (including one from previous year)  
Total of Grants - £356

Discretionary Grants - Nil

INSPECTIONS - Summary of inspections made:-

Public Health Act, 1936 and Housing Act, 1957

Number of inspections of dwellings re repairs	...	...	10
Number of dwellings made fit	...	...	5
Number of inspections for purposes of Sections 16/17 Housing Act. (Demolition and Closing Orders)	...	...	Nil
